EDUCATION

B.Sc. Mathematics & Computer Science

2010 – 2014

Continuous Professional Development

Udemy & online · 2014 – Present

CORE SKILLS

ARCHITECTURE

Microservices DDD Event-Driven
REST GraphQL System Design

DEVOPS & CLOUD

Docker Kubernetes CI/CD IaC
GitOps AWS GCP Azure SRE

BACKEND

Python Django FastAPI Flask
Node.js .NET Core

FRONTEND

TypeScript React Next.js Vue.js
Tailwind

DATA

PostgreSQL MSSQL MongoDB
Redis SQLite

LEADERSHIP

Team Leadership Mentorship
Curriculum Design Agile

LANGUAGES

Georgian Native

Russian Fluent

NIKA GAGUA

Software & DevOps Architect · Head of the School of Computer Science

Software & DevOps Architect and Head of the School of Computer Science with 10+ years turning complex requirements into scalable, production-grade systems. I design cloud-native architectures and CI/CD delivery pipelines for enterprise and fintech, and I lead academic programs that prepare the next generation of engineers — bridging industry practice and education.

INDUSTRY & ENGINEERING

Steel International Trading LLC

2025 – Present

Software DevOps Architect

Architect the cloud-native platform and delivery pipeline — CI/CD, infrastructure-as-code, containerized deployments and observability to ship reliably and securely at scale.

Upwork — Independent Software Consultant

2018 – Present

Full-Stack Developer & Solutions Architect

Deliver full-stack and architecture engagements for international clients — web apps, REST/GraphQL APIs, automation and cloud deployments — with a strong track record of repeat clients.

JSC MFO Swiss Capital

2024

Python & Odoo Developer

Built scalable Django services and customized Odoo ERP for a microfinance institution; designed PostgreSQL/MSSQL data models and microservices with code review and integration testing.

Elephant Fishing GmbH

2022 – 2024

Full-Stack Developer

Delivered full-stack apps in Python (Django, Flask, FastAPI) and JavaScript (Next.js, Vue), containerized with Docker and deployed across AWS, Google Cloud and Azure with CI/CD pipelines.

Solutions2Share Georgia

2022 – 2023

Software Tester & IT Support

Designed test scenarios, automated the ticketing workflow and supported end users, collaborating with developers to raise product quality.

ACADEMIC LEADERSHIP

Kutaisi International University

2024 – Present

Head, School of Computer Science

Lead the computer science department — curriculum modernization, faculty recruitment, examination management and strategic growth — with international faculty collaboration and student assessment.

Newvision University

2025 – Present

Software Architect

Architect academic and platform software systems, applying microservices and modern API design, while mentoring teams and bridging academic programs with current industry practice.

SELECTED PROJECTS

PDF Template Generator — document-generation platform with click-to-place positioning & batch CSV/Excel processing, collapsing workflows from hours to seconds. Flask · PostgreSQL · Docker · Redis · Celery

Lawyers Assist Translate — AI-powered legal translation with NLP context-awareness & multi-language support, cutting turnaround from hours to minutes. FastAPI · spaCy · Vue.js · TypeScript

Study Network Platform — educational platform connecting thousands of students with high engagement & measurable outcomes. Python · Django · JavaScript

EARLIER CAREER

Samsung Electronics Georgia

2019 – 2022

Retail Merchandise Manager

Produced management reporting, analyzed stock movement to surface growth opportunities, and trained consultants on product positioning.
